ROSETTA TECHNOLOGIES

ONSIGHT DECISION

Process Returns with Less Risk in Less Time

Reduce your risk by taking complete control of the processing of inclearing return items. Rosetta Technologies' OnSight Decision is a comprehensive, all-in-one system that takes return items processing to a new level. With sophisticated features that automate item decisioning, reduce printing and streamline and simplify the charge back process, OnSight Decision has everything you need to quickly, easily - and cost effectively - manage your returns processing.

RULES-BASED DECISIONING

Rosetta's proprietary Decisioning Engine takes the work out of manually reviewing each item to determine whether it needs to be re-presented or charged-back to the customer. The Decisioning Engine reviews incoming X9 Image Cash Letter (ICL) files, and determines whether the item should be re-presented for payment, printed and mailed as a chargeback, or if it's an exception item that requires manual review.

The Decisioning Engine can be configured to process files automatically, manually, or automatically with manual oversight. The flexible architecture offers the ability to decision items based on a set of predetermined rules such as item amount, number of times presented or the return reason code.

MERGED CHARGEBACK LETTER

Traditional charge-back processes include inherently labor intensive activities like the matching of IRDs with the advice notice, collation of documents and stapling. Also the manual "match and attach" of the advice notice and the IRD creates a risk that many financial institutions would like to eliminate.
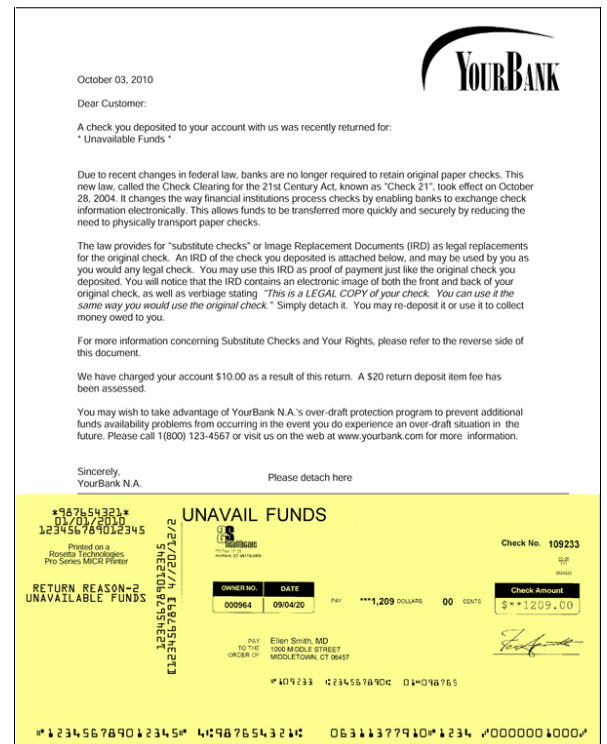

With OnSight Decision users can generate a professionally formatted customer letter, explanation of charges, legal rights and return IRD tear-off into one complete document. The document is then printed, folded, inserted into a window envelope and mailed. Users can also choose to create a personalized letter with custom fields, bank logo and other specific customer information.

OnSight Decision includes:

- OnSight Decision Software
- OnSight MICR Laser Printer
- Network Cable / USB Cable
- 200 sheets of IRD Security Paper
  - ~ 100 sheets of 3-UP (2-perf)
  - ~ 100 sheets of Merge Letter
- Rosetta 5 x 12 Toll-Free Tech Support Line
- One Year Warranty

Additional Options:

- Ex Model recommended for higher capacities
  - (Volumes exceeding 5,000 items per month)
- View and Reprint Software

OnSight Decision Software Features

- Fully integrated all-in-one IRD printing solution
- Accepts any compliant X9 Image Cash Letter (ICL) Files: ASC X9.37, X9.100-180, X9.100-187
- Compatible with the latest FRB Universal Companion Document Standards
- Generates ASC X9.100-140 Image Replacement Documents
- Uses system level security and ID and password
- Creates detail report for each ICL printed
- Creates and maintains audit and process logs

Software System Requirements

PC Speed	Intel Core i3 or higher
Memory	1 GB
Connectivity	Ethernet connection 100 Mb per second or higher
PC Options	CD-ROM Required
Printer Requirements	Rosetta-certified MICR printer
PC Platform	Windows 7, 8, 10
	Windows 2008 Server R2
	Windows 2012 Server R2

OnSight Decision Printer Specifications

Maximum Resolution	Up to 1200x1200 DPI
Printing Speed	Up to 31 ppm
Duplex	Standard
First Page to Print	< 6.5 Seconds
Standard Input Capacity	**TRAY 1:** 250 Sheets
	TRAY 2: 250 or 500 Sheets
	BYPASS TRAY: 100 Sheet
Maximum Input Capacity	850 Sheets
OnSight Decision	**SUPPORTS 8.5"x11" IRD PAPER ONLY**
Printer Capable Paper Sizes	**STANDARD/OPTIONAL TRAYS:** All Standard Sizes from 5.5"x8.5"–8.5"x14"
	BYPASS TRAY: All Standard Sizes from 4.1"x5.8"–8.5"x14"
	OPTIONAL PAPER FEED UNIT: All Standard Sizes from 5.83"x8.27"–8.5"x14"
Standard Output capacity	150 Sheets, Face Down
Power Requirements	110 – 120V, 60Hz
Power Consumption	850W or Less **Energy Saver:** 5W or Less
Connectivity	USB 2.0, 10/100Base-TX Ethernet
Page Description Languages	PCL 5e, PCL 6, Adobe®PostScript®3™
MICR Fonts (Supplied on CD)	E-13B
Network Protocols	TCP/IP, AppleTalk
Recommended Print Volume	700-10,000 Pages per Month 1050-9000 IRDs per Month (3-up)
MICR Toner Cartridge Yield	6,000 Pages based on ISO standard
MICR Starter Cartridge	1,500 Pages based on ISO standard
MICR PCDU Cartridge	20,000 Pages based on ISO standard

IRD Quality Guarantee

Guaranteed ANSI and ASC Acceptance Standards If Using Rosetta Technologies' Approved IRD Stock, Supplies and Authorized Service.

Warranty: 1-Year Express Exchange
Covers defects in materials or workmanship that cannot be resolved through telephone assistance. Once authorized, a replacement product is shipped at no charge via prepaid overnight delivery, and the defective printer is returned at no charge using the packing materials from the replacement printer.

Support: Rosetta 5 x 12 Toll-Free Tech Support Line
