ONSIGHT

The all-in-one solution for printing IRDs directly from X9 electronic cash letters

With the Federal Reserve closing down paper print and processing locations, now is an important time to evaluate your return items process.

Receiving paper returns from the Fed could take four or five days—or more—once the changes go into effect. This puts banks and credit unions at risk for releasing funds before they receive notification of a rejected item, and potentially losing those funds. Now there is a better way to manage all types of electronic items received from the Fed and other exchange partners: Rosetta Technologies' OnSight.

OnSight is an all-in-one, easy-to-use system that includes everything needed for financial institutions to quickly and easily transform and print IRDs from X9 electronic cash letters, without the need for costly software or extensive IT support. With just a few mouse clicks, institutions can take their incoming X9 files and securely print compliant IRDs on the OnSight MICR laser printer.

IRDPRINT ONSIGHT PROVIDES MANY BENEFITS TO FINANCIAL INSTITUTIONS:

- Fast and cost-effective solution for printing all types of IRDs, directly from originators and processors
- Cuts costs and saves time by eliminating couriers and other manual processes
- Guaranteed to comply with ASC (Accredited Standards Committee) Check 21 & IRD standards
- Flexible MICR printer can be used for other MICR applications as well as standard office documents

IRDPRINT ONSIGHT INCLUDES EVERYTHING YOU NEED TO GET STARTED:

- OnSight Software
- 31 ppm OnSight MICR Laser Printer
- USB or network cable (dependent on network type)
- 24lb. Promark IRD Paper (200 sheets, 2-perf)
- Quick Start Installation Guide and User Manuals
- Rosetta 5 x 12 Toll-Free Tech Support Line
- One-Year Advance Exchange Warranty
- Onsite Service Coverage available

ADD THESE OPTIONS FOR EVEN MORE FUNCTIONALITY AND VALUE:

- IRDPrint View and Reprint Software
- X9 File Explorer Software
- 1, 2, & 3-Year Onsite Service Upgrades

OnSight Software Features

- Fully integrated all-in-one IRD printing solution
- Accepts any compliant X9 Image Cash Letter (ICL) Files: ASC X9.37, X9.100-180, X9.100-187
- Maintains compliance and compatibility with FRB ICL and IRD standards
- Compatible with FRB ICL Companion Document Standards
- Generates ASC X9.100-140 Image Replacement Documents
- Uses System Level security and ID and password
- Creates detail report for each ICL printed
- Creates and maintains audit and process logs
- Drives IRDPrint OnSight IRD Printer at rated speed

Software System Requirements

PC Speed	Intel Core i3 or higher
Memory	1 GB
Connectivity	Ethernet connection 100 Mb per second or higher
PC Options	CD-ROM Required
Printer Requirements	Rosetta-certified MICR printer
PC Platform	Windows 7, 8, 10
	Windows 2008 Server R2 Windows 2012 Server R2

OnSight Printer Specifications

Configuration Technology	Desktop Laser beam scanning, electrophotographic printing using dry mono-component toner development
Maximum Resolution	600 x 600 dpi, 1200 x 600, 1200 x 1200
Printing Speed	Up to 31 pages-per-minute (Letter)
Standard Print Utilities	Web Image Monitor (when connected to a LAN), Printer Utility for Mac, @Remote (limited support)
Standard Input Capacity	**Tray 1:** 250-Sheets
	Bypass Tray: 50 Sheets
Optional Input Capacity	250/500 Sheets, Paper Feed Units
Power Requirements	110 - 120V, 60Hz
Connectivity	USB 2.0, Ethernet 10/100Base-TX
Page Description Languages	PCL5e, PCL 6, PostScript 3 emulations
Network Protocols	TCP/IP, AppleTalk
Maximum Input Capacity	550 Sheets
Resident Fonts	PCL/PS 3: 80 fonts
MICR Fonts (Supplied on CD)	E-13B, CMC7, Secure Amount, Secure Payee
Recommended Print Volume	700-6,000 Pages per Month
MICR Toner Yield	6,000 Pages @ 4% coverage
MICR Toner Starter Cartridge Yield	1,500 Pages @ 4% coverage
MICR PCDU	20,000 Pages @ 4% coverage

IRD Quality Guarantee

Guaranteed ANSI and ASC Acceptance Standards If Using Rosetta Technologies' Approved IRD Stock, Supplies and Authorized Service.
