

Process returns with less risk in less time

Take complete control of the processing of inclearing return items. OnSight Decision automates item decisioning, reduces printing, and simplifies the chargeback process.

INSIDE

- Rules-based Decisioning Engine for incoming X9 Image Cash Letter files
- Merged chargeback letter: customer letter and IRD tear-off in one document
- Software, MICR laser printer, IRD security paper and support in one package

THE BOTTOM LINE

OnSight Decision is a comprehensive, all-in-one system for return items processing. Its Decisioning Engine reviews incoming X9 Image Cash Letter files and decides, by your rules, whether each item is re-presented for payment, printed and mailed as a chargeback, or held for manual review. It runs on an OnSight MICR laser printer at up to 31 ppm.

RULES-BASED DECISIONING

Stop reviewing every item by hand

Our proprietary Decisioning Engine takes the work out of manually reviewing each item to determine whether it needs to be re-presented or charged back to the customer. It reviews incoming X9 Image Cash Letter (ICL) files and determines the outcome for every item.

Re-present

The item is re-presented for payment.

Charge back

The item is printed and mailed as a chargeback.

Exception

The item is an exception that requires manual review.

How you control it

Processing modes

Process files automatically, manually, or automatically with manual oversight.

Decision rules

The flexible architecture decisions items based on a set of predetermined rules, such as item amount, number of times presented, or the return reason code.

31 ppm

Printing speed, up to

1200x1200

DPI maximum resolution

700 to 10,000

Recommended pages per month

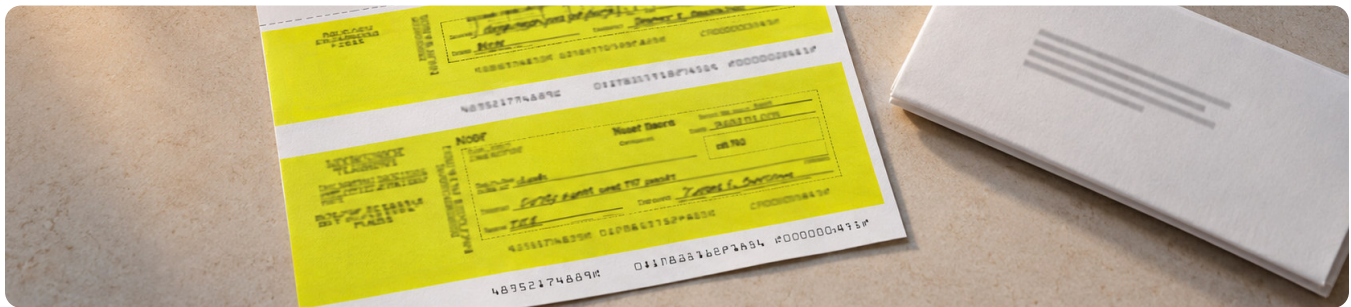

MERGED CHARGEBACK LETTER

One complete document, ready to mail

Traditional chargeback processes include labor-intensive activities like matching IRDs with the advice notice, collating documents and stapling. The manual “match and attach” of the advice notice and the IRD also creates a risk that many financial institutions would like to eliminate.

With OnSight Decision, users generate a professionally formatted customer letter, explanation of charges, legal rights and return IRD tear-off as one complete document. The document is then printed, folded, inserted into a window envelope and mailed. Users can also create a personalized letter with custom fields, bank logo and other specific customer information.

OnSight Decision includes

- OnSight Decision Software
- OnSight MICR Laser Printer
- Network Cable / USB Cable
- 200 sheets of IRD Security Paper: about 100 sheets of 3-UP (2-perf) and about 100 sheets of Merge Letter
- Rosetta Technologies 5 x 12 Toll-Free Tech Support Line
- One Year Warranty

Additional options

Ex Model recommended for higher capacities (volumes exceeding 5,000 items per month).

- View and Reprint Software

OnSight Decision software features

- Fully integrated all-in-one IRD printing solution.
- Accepts any compliant X9 Image Cash Letter (ICL) Files: ASC X9.37, X9.100-180, X9.100-187.
- Compatible with the latest FRB Universal Companion Document Standards.
- Generates ASC X9.100-140 Image Replacement Documents.
- Uses system level security and ID and password.
- Creates detail report for each ICL printed.
- Creates and maintains audit and process logs.

SPECIFICATIONS

Software and printer specifications

Software system requirements

PC Speed	Intel Core i3 or higher
Memory	1 GB
Connectivity	Ethernet connection 100 Mb per second or higher
PC Options	CD-ROM Required
Printer Requirements	Rosetta Technologies-certified MICR printer
PC Platform	Windows 7, 8, 10 Windows 2008 Server R2 Windows 2012 Server R2

OnSight Decision printer specifications

Specification	OnSight MICR Laser Printer
Maximum Resolution	Up to 1200x1200 DPI
Printing Speed	Up to 31 ppm
Duplex	Standard
First Page to Print	< 6.5 Seconds
Standard Input Capacity	Tray 1: 250 Sheets Tray 2: 250 or 500 Sheets Bypass Tray: 100 Sheet
Maximum Input Capacity	850 Sheets
OnSight Decision	Supports 8.5"x11" IRD paper only
Printer Capable Paper Sizes	Standard/Optional Trays: All Standard Sizes from 5.5"x8.5" to 8.5"x14" Bypass Tray: All Standard Sizes from 4.1"x5.8" to 8.5"x14" Optional Paper Feed Unit: All Standard Sizes from 5.83"x8.27" to 8.5"x14"
Standard Output capacity	150 Sheets, Face Down
Power Requirements	110 to 120V, 60Hz
Power Consumption	850W or Less Energy Saver: 5W or Less
Connectivity	USB 2.0, 10/100Base-TX Ethernet
Page Description Languages	PCL 5e, PCL 6, Adobe® PostScript® 3™

Specification	OnSight MICR Laser Printer
MICR Fonts (Supplied on CD)	E-13B
Network Protocols	TCP/IP, AppleTalk
Recommended Print Volume	700 to 10,000 Pages per Month 1050 to 9000 IRDs per Month (3-up)
MICR Toner Cartridge Yield	6,000 Pages based on ISO standard
MICR Starter Cartridge	1,500 Pages based on ISO standard
MICR PCDU Cartridge	20,000 Pages based on ISO standard

IRD Quality Guarantee

Guaranteed ANSI and ASC Acceptance Standards if using Rosetta Technologies' approved IRD stock, supplies and authorized service.

Warranty and support

Warranty

1-Year Express Exchange. Covers defects in materials or workmanship that cannot be resolved through telephone assistance. Once authorized, a replacement product is shipped at no charge via prepaid overnight delivery, and the defective printer is returned at no charge using the packing materials from the replacement printer.

Support
